Beyond the Call | Activity 1

A real conversation.
A bigger story.

Read Between the Lines

Same customer.
Different needs.
A bigger story.

Work with your team. Use the conversation to understand what the customer is going through, not just what they are asking for.

1 What matters most to the customer?

What is the customer trying to protect, achieve, or avoid?

2 What is the customer feeling?

How do their feelings change during the call? What tells you that?

3 What has the customer already been through?

What time, effort, or patience has the customed already spent before this conversation?

4 Where could trust be lost?

Which moment could make the customer feel ignored, dissapointed, or unsure that the company will help?

5 What would make the experience better?

Choose one action the agent could take to make the customer feel heard and move closer to a solution.
