Beyond the Call | Activity 2

A real conversation.
A bigger story.

Make the Response Fit

Same customer. A better experience.

Work with your team. Choose one customer situation and turn a standard response into a response that fits.

1

Understand the situation

What does the customer need most right now?

2

Choose a starting response

Which response (A, B, C or D) would you use first? Why does it fit this customer?

3

Ask one useful question

What do you need to understand before deciding what to do?

4

Improve the response

Rewrite it so the customer feels heard and knows what happens next.
